

The Atomic Spectroscopy Group from NIST

Partner contact person: [Dr. Yuri Ralchenko](#)

Where high quality evaluated data are available in the Atomic Spectroscopic Database (evaluation is made by a dedicated group of specialists) and where the scientist in charge (Dr. Yuri Ralchenko) is a specialist on development of standards for atomic and molecular data with a long-lasting collaboration with OBSPARIS on XML schema for atomic and molecular data. This group has a strong link with IAEA and will provide opportunities for SUP@VAMDC to

engage with other USA partners in atomic physics and related applied fields.
